## S-TRIX
OPERATING INSTRUCTIONS

DA FIT APP DOWNLOAD

Search for the app "Da Fit" in the Apple or Google Play stores. Only visit the official App stores to download the app.

Alternatively you can scan the QR code to download and install the app.
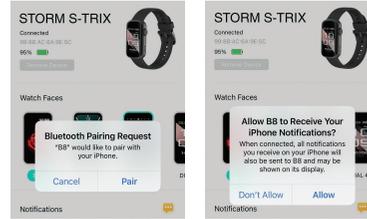

CHARGING THE SMARTWATCH

Plug the charging cable into a USB adaptor. Match the magnetic connector with the 2 charging points on the back of the watch. When the battery is fully charged, the battery grid will display full.

Note: Press and hold button A to turn the watch on. While display is on, press and hold button A to turn off.

Press A to return to home screen from other screens.

MAIN SMART WATCH FEATURES

PHONE
After connecting the smart watch to the app, you can use the watch to dial, make calls and answer calls.

You can also view the call history from the watch and add frequent contacts.

When using the call function, please make sure that the watch is connected to the phone in a stable state.

MESSAGE NOTIFICATION
The watch can receive message push notifications. Swipe up from home screen to view messages. Up to 5 recent messages can be stored.

Note: Set notifications on/off in the app.

HEART RATE
The watch records your heart rate throughout the day. Tap the screen to measure the current heart rate. More detailed data and records can be viewed in the app. Swipe up for more info.

SLEEP
Wearing your watch during sleep records the hours slept and quality on the watch and app. More detailed records can be viewed in the app. Swipe up for more info.

Note: Sleep stats reset to zero at 8:00 pm.

BLOOD OXYGEN
Tap the SpO2 screen to start measuring your blood oxygen. More detailed data and records can be viewed in the app. Swipe up for more info.

BLOOD PRESSURE
Tap the screen to measure your current blood pressure. More detailed data and records can be viewed in the app. Swipe up for more info.

EXERCISE
Tap the exercise icon in the main menu. Tap the Sport type to start. Data recorded includes time, steps, distance, calories and heart rate. Pause or end exercise.

STOPWATCH
The Stopwatch can be found in the main menu. Tap the play button to start the timer. Press the pause button to pause the timer. Press the reset button to reset the timer.

WEATHER INFORMATION
This shows the current weather and temperature. Weather info is synced once connected with the app.

Note: Weather will not update after a period disconnected.

REMOTE CAMERA
After connecting the device, you can remotely control the phone's camera. Open 'Shutter' on both the watch and on the app on your phone. Take a picture by tapping the button on the watch screen or shaking your wrist. Photos can be found in the picture gallery on your phone.

MUSIC CONTROL
While connected, the watch can control the phone's music player.

Note: Ensure Bluetooth is turned on and connected. To prevent the music coming from the watch speaker, switch off 'Audio' under Settings (Cog icon) in the Control Centre.

AI VOICE
Use voice commands to control your phone's digital assistant to make calls, play music or get a weather forecast etc

Note: Ensure Bluetooth is turned on and your phone's assistant is active.

FIND PHONE
When activated the Bluetooth radar will detect a nearby connected phone. The phone will ring out allowing you to locate it.

Note: Phone must be within Bluetooth range and connected.

OTHER FUNCTIONS
Other functions of the watch include: Phone Settings, Display Brightness, Vibration Control, Do Not Disturb (DND), Reset, Power Off, About.

Find these functions in the Control Centre of the watch under the Settings (Cog icon).

---

1. Do not use charging voltage greater than 5V, charging current greater than 2A adapter, charging time of 2-3 hours.

2. Do not charge if watch or cable is in contact with water or water stains.

NOTES

1. If you have questions about the product, please contact the place of purchase.

2. The measurement results of this product are for reference only, and not for any medical purpose. Please follow your doctors advice/instructions and do not rely on the measurement results of the watch or the app for self diagnosis or treatment.

3. The exercise data may not be accurate. Depending on signal, connection, distance from phone, movement type, the data may not always be accurate.

4. This watch is only suitable for accidental water splashes, but not suitable for swimming. Please keep watch away from contact with water to avoid damage. Keep watch away from hot water splashes and steam.

5. We reserve the right to modify the manual or watch & app interface without notice. Some functions may be different depending on different software versions/upgrades, this is normal.

6. Some functions like message notification, caller ID display may not be compatible with some types of smart phones, this is normal.

Please familiarise yourself with all the features and functions of the app and customise/adjust where required.

Product Security Information (PSTI Act 2022) This product complies with the UK Product Security and Telecommunications Infrastructure (PSTI) Act 2022. Full details regarding security support and vulnerability disclosure are on: https://stormwatches.com/compliance
